ACTIVITY REPORT 2021-22

Organization Strength and Structure

About Organization-

Ninad (Badlav ka Swar), Uttarakhand is a voluntary organization established in the year 2021-22 and registered under Public Trust Act, 1950, and working in the rural and urban areas of Chamoli district, Uttarakhand. The organization specially works on IT Education, Skill Training, empowerment, Institution development at local level, livelihood, Child Protection, Education, Old Age Caring and Health.

The Key Person of the Organization is closely associated with various social organisation for a long period during which developed a deep insight into the issues and problems the people of women, backward areas and rural areas of the district. The NINAD works at the grassroots level in urban and villages/hamlets for social, cultural, Mass marriages, economical, technological, and environmental development of rural and urban slum communities of the region. It visualizes itself as an agency dedicated to enabling the marginalized rural and urban slum communities comprising poor women, peasants, landless and unemployed youth to develop and improve the resource base in their own natural environment and to acquire the necessary knowledge and skills which can be used to improve their quality of life.

NINAD has adopted the concept of Community Development in terms of Organization, Social Mobilization, Continuing Education, and Rural Development Management based on local needs, resources, capacity, skills, and cultural milieu.

Vision of Organization

Economic empowerment, improved information, education to street children, Education and health services were considered to be essential elements of development programs. Central to all these have been the question of enlisting community participation, communication, and management. This vision has been the heart of NINAD.

Mission of the Organization

The mission is to facilitate and provide shelter the deprived and subjugated Old Aged, women, Children and BPL to gain access to their entitlements, which is their right and keep our environment green and clean and Providing education to street children.

With a firm belief in the essential dignity of the community and in their capability to overcome the forces that exploit them, NINAD views development as a process of empowerment, focusing on people's participation and the creation of groups and associations at the local level.
